# THEORY

The first part of the theory is the definition of the system. The system is defined as a set of components that interact with each other. The components are defined as the elements that make up the system. The interaction between the components is defined as the process by which the components work together to achieve a common goal.

The second part of the theory is the definition of the system's behavior. The behavior is defined as the way in which the system responds to external inputs. The behavior is defined as the way in which the system changes over time.

The third part of the theory is the definition of the system's structure. The structure is defined as the way in which the components are organized. The structure is defined as the way in which the components are connected to each other.
